

H₂O Hydration Station

A smart water refill unit with safe, contact-less dispense

The H₂O Hydration Station allows users to fill re-usable bottles on the go with refreshing filtered water, eliminating the need for single-use plastic bottles.

To ensure hygiene and safety, the bottle-filling station features touch-less operation, UV filtration and flash chilled technology. The unit is equipped with an integrated media screen and boasts user experience, bottle rinse functionality and a large dispensing area to accommodate re-usable sports bottles of any size.

Four dispensing options:

- Bottle rinse
- 500ml water dispense (chilled & filtered)
- 750ml water dispense (chilled & filtered)
- Freefill up to 1 litre (chilled & filtered)

Tailor your machine for your needs.

Bespoke branding (10+ machines), optional payment integration (coin/card) and a programmable display screen that can deliver targeted messaging and advertising.

Technical specifications

	Freevend	Payvend
Dispensing capacity	50 Litres	50 Litres
Dispensing aperture	275mm	275mm
Weight	101 kg	101 kg
Height (mm)	1815	1815
Width (mm)	500	710
Depth (mm)	700	700
Water output	Chilled	Chilled

Energy consumption

Idle phase (watt/hr)	26
Vending phase (watt/hr)	65
Cooling phase (watt/hr)	150

Water requirements

Water supply	Portable water supply terminating in a 15mm compression isolation valve
Pressure (min)	2 Bar

Electrical services & rating

Voltage (Volts AC)	240
Current (amps)	13
Frequency (Hz)	50

Example of branded concept (available for orders of 10+ machines)
